OIL CONSERVATION.
BOOTLEG LIQUOR.
FORBID HER HUR.

By Arthur Brisbane
(Copyright 1930 By King Features
Syndicate, Inc.)

THE District of Columbia supreme court decides that the administration's oil conservation program is illegal, presumably because it is based on conversations and agreements among big producers.

How else could conservation be accomplished? Why not make it a felony for two American business men to speak to each other.

SECRETARY WILBUR believes that conservation will win, and it ought to win, before the highest court. Squandering of the country's oil resources is criminal foolishness, and forbidding Americans to engage in business on a really big basis, while permitting foreigners operating here to do as they please, is business foolishness. You don't find that foolishness in Britain.

Attorney General Mitchell asks the supreme court to rule that ordering bootleg liquor delivered at your home is illegal. Judges have decided that ordering, buying and causing transportation of liquor is no crime. They would not so decide if you ordered a fence to deliver stolen goods at your house.

The fact is that many judges, like others, when it comes to the point of refusing to take prohibition seriously.

SPEAKING OF BIBLICAL stories, what do you think of the Chinese forbidding the showing of Ben Hur, because "it is pure propaganda encouraging belief in baseless superstitions," the superstitions referred to being the teaching from believers in Shintoism, that seems a little hard. From a Confucian agnostic in all things, and intellectually dignified, you would resent it less violently.

Really, it hardly seems worth while to spend good missionary money saving souls with so little appreciation.

THE TU QUOQUE IS never very effective, but consider some superstitions that our good missionaries have to combat. Mr. and Mrs. Johnson, traveling with moving picture cameras among the world, bring this from the far east.

In Polynesia, the marriageable women parade before priests of the devil-devil gods, the latter having been violently serenaded for a week in advance to get their attention.

LIGHTLY CLAD, the young ladies are smeared with coconut oil, and as they pass a devil-devil priest scrapes off a little oil from each girl's back. The oil is analyzed, in the devil-devil god's sanctum, and the priest tells the young woman she may marry now, or must wait a year.

Among those heathens, to question the accuracy of that backscrapping method is as serious an offense as it is to doubt Jonah's trip, among good American fundamentalists.

INDIANS ATTACK POLICE ARSENAL

Over Thousand Rifles Are Missing After Raid; Tension Drawn

CALCUTTA, BENGAL, INDIA, April 21.—Authorities today feared tension prevailing throughout Bengal province portended serious developments. There were arrests of the civil disobedience campaign leaders all over the province as a preventive measure.

Meanwhile police and soldiers searched the hills near Chittagong for the 60 or 100 insurgents who Friday night attacked the police arsenal and other public buildings there and killed six of the police defenders. Five arrests have been made.

About 1,000 rifles, 20 revolvers, and 50 muskets were missing from the police arsenal after the raid by the Indians, who are believed revolutionaries but with a direct connection with the all-India national congress and the civil disobedience campaign as yet unestablished.

Bridge Tournament Here On Thursday

Salem's second annual bridge tournament will be held at 8 p. m. Thursday at Memorial building under the direction of Atty H. H. Hickling, assisted by Joe M. Kelley. Open and mixed games will be played and a silver loving cup and gold pins will be given winners in sections in each event.

Those in charge hope for a large attendance from Salem. Guests are expected from Leetonia, Lisbon, Alliance, Sebring, Youngstown.

Many New Members Join Salem Church

The evangelistic services at the Christian church in charge of Rev. Gaines Cook, of Cleveland, closed Sunday. More than 40 additions to the church are reported.

At the baptismal service Sunday afternoon at the church 24 received the rites.

A meeting of the official board of the church will be held tonight.

14 Hours, 23 Minutes In Air Completes Coast To Coast Voyage

(By The Associated Press)
NEW YORK, April 21.—"We" have another record, a cross-continent flight faster than anybody else.

Taking off from Glendale, Calif., just at daybreak Colonel and Mrs. Charles A. Lindbergh yesterday brought their new brilliant scarlet and black monoplane to a three-point landing on Roosevelt field, where the colonel took off for Paris three years ago this spring. The arrival was 48 minutes before the day was done.

The approximate distance flown was 2,500 miles, the flying time 14 hours, 23 minutes, 27 seconds, the average speed 172 miles an hour. A stop was made at Wichita, Kan., of 22 minutes and five seconds for fuel.

FEBRUARY, 1929.—Hawks, 18 hours, 21 minutes, 50 seconds.

AUGUST, 1928.—Arthur Goebel and Harry Tucker, 18 hours, 58 minutes.

MAY, 1923.—Lieutenant Kelley and MacReady, 26 hours, 59 minutes.

but not food. Lunch prepared at Los Angeles, was eaten in the air.

Disclaims New Record
Although the colonel disclaimed any new record, the time of the flight was 3 hours, 15 minutes and 29 seconds faster than it ever had been flown before. Captain Frank Hawks, last June 29, flew from Glendale to Roosevelt field in 17 hours, 38 minutes and 56 seconds, non-stop. The fact that he and Mrs. Lindbergh made a stop, the colonel pointed out, technically made their flight not one to compare with that of Captain Hawks. Captain Hawks himself, however, and probably everyone else except the colonel accepted the flight as a new record.

CHILDREN KILLED WHILE AT PLAY

Sisters Die In Tunnel As Train Rushes Through; Others Leap To Safety

ST. CLAIRSVILLE, April 21.—Two small sisters were killed when a Baltimore and Ohio passenger train trapped them in a tunnel at Glencoe, eight miles east of Bellaire, last night.

The dead were Rosie, 13, and Anna, 9, the only children of Mr. and Mrs. Andrew Mazi. They were playing with a group of other girls at the mouth of the tunnel. Their companions leaped to safety when the train, bound from Cincinnati to New York, approached, but the Mazi sisters, apparently paralyzed with fright, stood clasped in each others arms.

Anna was killed instantly and Rose died of a fractured skull before the train could take her to a Bellaire hospital.

Engineer Charles Able, of Newark, O., said he did not see the girls in the darkness of the tunnel. Coroner J. W. Neil, who began an investigation, indicated he would exonerate Able.

Grange Masters To Plan On Institute

Masters and lecturers of five granges in this district, Salem, Perry, Goshen, Willow Grove and Mt. Nebo, will meet Saturday evening at Memorial building to plan for Salem's annual farmers institute next year.

These granges have sponsored the annual institute here for the last two years.

Population Lower In County Cities

Unofficial 1930 census returns reported in East Liverpool indicated decreases in population of two Columbiana municipalities today.

East Palestine figures showed a decrease of 543 in the past 10 years, enumerators reporting the 1930 population at 3,207. The population in 1920 was 3,750.

An estimated decrease of approximately 1,500 is reported from three of four wards. Figures from each of the three wards to issue reports showed marked decreases, the estimated population for the entire city being 7,382.

The official 1920 census for Wellsville was 8,849.

TRIPLE MURDER MARKS EASTER DAY IN CHICAGO

Speakeasy Scene Of Death Battle; One Man Does All Shooting

(By The Associated Press)
CHICAGO, April 21.—The Blue Hour saloon, no stranger to gang murder, saw a triple slaying early Easter morning.

One man entered the speakeasy, tossed a dollar bill on the bar and ordered beer. Two minutes later he ran out, the beer untouched, change from his dollar still on the bar—and three dead men on the sawdust floor.

Walter Wakefield, "The Fibber," lay dead behind the bar. A bullet had struck him on the back of the head.

Frank Del Re, sometimes called Frank Dier, 33, also had been shot in the back, apparently as he sought to flee.

Joseph Special, 28, partner of Del Re in the operation of the grocery, lay dead in front of the bar. He had been shot in the chest as the assassin turned to meet his attack. In one dead hand Special clasped a knife. In the other, gripped like a club, was the bust of a plaster saint.

CONVICTS FAIL IN PEN BREAK

Saw Way From Cell In Absence Of Guard; Captured Later

COLUMBUS, April 21.—An Ohio penitentiary guard was under suspension and three convicts were in solitary confinement today as a result of an attempted escape Saturday night.

The guard, Martin Geaghan, was charged with having been absent from his post when the trio sawed their way to the outside of the cell block. Warden P. E. Thomas said his investigation showed that a lock on the cell door might have been filed several days ago and he planned to question other guards to determine why the defective lock had not been noticed.

The prisoners, James Scott, serving 10 to 20 years for shooting to kill; John Nichols, serving 10 to 25 years for robbery, and Charles Terwilliger, serving 6 to 7 years for larceny, were caught by Guard C. A. Peniston. They surrendered without resistance.

Thomas said that Geaghan violated prison rules by going to the end of the cell block to eat his lunch, thus permitting the prisoners to leave the cell unnoticed. A file and two saws were found in the empty cell and the warden was trying to learn how the men obtained them.

The trio belonged to "Company K," noted for its large number of desperate criminals.

Salem Kiwanians To Visit Leetonia

Thirty members of the Salem Kiwanis club will attend the inter-city meeting of county Kiwanians at Leetonia at 6:30 p. m. Tuesday.

The Salem group will participate in the evening's program. Members will meet at the Memorial building at 6 p. m.

The Leetonia meeting will take the place of the regular Thursday noon session of the Salem club.

FINAL MEETING ON NAVY PARITY COMES TUESDAY

Five Nations Will Sign Portions Of Pact; Three Entirety

WILL MARK END OF 3-MONTHS' SESSION

America Will Be First To Affix Signatures To Naval Agreement

LONDON, April 21.—Announcement was made at St. James's palace, this noon that the last plenary session of the five power naval conference would be held at 10:30 a. m. tomorrow. The treaty drawn up here, a three-power limitation pact with some five power sections, will be signed at that time.

On the strength of the announcement the American delegation here happily concluded their sailing arrangements for the trip back home aboard the Leviathan, which may be held at Southampton until Wednesday morning for them.

Most of the delegation were in their quarters, superintending packing after the three months in London, while Col. Stimson bade farewell to his country home at Stanmore and said goodbye to his household staff there.

The American delegation will be the first to sign the historic document, Col. Stimson as its head, leading off. The powers will sign according to their English alphabetic order, America, France, Great Britain, Italy and Japan. Following Col. Stimson will be Ambassador Dawes, Secretary Adams, Senator Robinson, Senator Reed and Ambassadors Gibson and Morrow.

The treaty drafting committee took final survey of the treaty this forenoon and pronounced their work done. Ambassador Morrow, the American member of the committee, announced after the meeting that everything was set for the signing tomorrow. His announcement set at rest strong fears that some hitch would develop.

Joseph Special, 28, partner of Del Re in the operation of the grocery, lay dead in front of the bar. He had been shot in the chest as the assassin turned to meet his attack. In one dead hand Special clasped a knife. In the other, gripped like a club, was the bust of a plaster saint.

BOARD INSPECTS FAIRMOUNT HOME

Report On Conditions At Two-County Orphanage; Held Favorable

LISBON, April 21.—The Columbiana county visiting board, following its inspection of the Fairmount children's home at Alliance, operated jointly by Stark and Columbiana counties, has filed its 1930 report with Probate Judge Lodge Riddle.

It shows 103 of the children enrolled at Fairmount are from Stark county and 73 from Columbiana county.

There are three children in the hospital at the institution, two suffering from colds and one from a slight injury. The visiting board has commended the present management.

Live stock reported at the institution consists of 1466 chicks, 350 head of large poultry, two horses, 14 cows, nine calves and 19 hogs.

Members of the visiting board are Lee Deemer, Lisbon; Mrs. S. W. Tidd, Columbiana; Miss Caroline Bowers, Wellsville; Mrs. Harvey McHenry, East Liverpool and Mrs. William Dunn, Salem.

The prisoners, James Scott, serving 10 to 20 years for shooting to kill; John Nichols, serving 10 to 25 years for robbery, and Charles Terwilliger, serving 6 to 7 years for larceny, were caught by Guard C. A. Peniston. They surrendered without resistance.

PARKER VOTING IS UNFAVORABLE

BULLETIN
WASHINGTON, April 21.—Led by six Republicans, the senate judiciary committee today voted an unfavorable report to the senate on President Hoover's nomination of Judge John J. Parker, of North Carolina, to be an associate justice of the supreme court.

The nomination will go to the senate where another vote is in order on the direct question of confirmation of the nominee. Before adopting an unfavorable report, the committee refused by an overwhelming vote to invite Judge Parker here to answer the protests against him.

MANY HOMELESS AS HIGH WINDS SWEEP ISLANDS

Destruction Wrought In Area By Unseasonably Heavy Storms

MANILA, April 21.—Crippled communications today brought further evidence of the toll taken Friday by the destructive typhoon which swept over 14 towns of the island of Leyte, demolishing the communities of Tosa and Dulag. Thousands were homeless and many believed dead or injured.

Official reports from the devastated region said that a complete check could not be completed for a week or more, since many towns had been isolated with telegraph and telephone wires down.

The typhoon, of small area but unusual intensity, came as a surprise to weather bureau officials since such storms rarely occur at this season in the Philippines.

Governor De la Cruz of Leyte wired the American Red Cross here, 48 hours after the typhoon struck "please secure immediate aid for thousands of homeless people, especially food, clothing and building materials."

He described coconut trees as standing like candles with their tops blown off. The entire crops was destroyed, he said.

The Red Cross has taken action toward organizing the provincial forces of Leyte and Samar and arranged to send doctors, nurses and relief supplies on the first vessel from this port.

IDENTIFY THREE WHO LOST LIVES

Automobile Plunged Into Waters Through Open Draw Bridge

TOLEDO, April 21.—Satisfied of the identity of the three persons who drowned in Maumee river early Friday when their automobile plunged through the opened draw of a bridge, police have halted their search for the bodies.

A key wrapped up in a handkerchief and fitting the door to the apartment of Gertrude Chadwick, 21, identified her and her cousin, Lillian Burdick, 19, and Thomas Knight, 22, as the victims, police said. The three had been missing since Thursday night.

Canton Resident To Face Charge

Officials Believe Over \$50,000 Was Taken By Salesman

CANTON, April 21.—Arrested at St. Louis after leading private detectives a month's chase as far as Monterey, Mex., Russell G. Everhardt, a salesman, will be brought back here to face charges of embezzling between \$50,000 and \$100,000 from the Maxwell office of the Henry L. Doherty company.

Police said that Everhardt's former stenographer, Caroline Huber, who disappeared four days after he left ostensibly on a vacation, was with him at the time of his arrest. Canton officers were expected back today with Everhardt and the girl.

Everhardt, according to police, sold stock in the Doherty company, receiving the down payment in his own name and giving personal receipts, but failed to list the stock on the company's books.

St. Louis police reported that he said he had lost nearly \$200,000 in the stock market. He was arrested there Saturday night after his trail had been traced to St. Louis, Oklahoma City, Houston, Monterey, and back to St. Louis.

Cleveland Woman Injured In Crash

MARION, April 21.—Mrs. Ronald Fate, 23, of Cleveland, one of eight persons injured in two automobile accidents near here Sunday. Remained in a critical condition today, in a Marion hospital.

She had not regained consciousness. Her skull was fractured.

Mr. and Mrs. Charles Wolfman, and their eight year old daughter, of Toledo, also victims of one of the accidents, were reported to be recovering.

To Make Appeal

AKRON, April 21.—An attempt will be made before the Ohio board of clemency Tuesday to obtain commutation of the death sentence of John Richardson, 22, Cleveland, sentenced to die in the electric chair Friday for the fatal shooting of Stephen Pierson, 30.

CHARLES QUIRK SENT TO PRISON

Pleads Guilty To Robbery Of Residence In This City

LISBON, April 21.—Harry W. Kushing, who is free on \$10,000 bond, retained Attorneys J. H. Brookes and W. B. Moore.

The only guilty plea entered was that of Charles Quirk, of Youngstown, who was arrested in Salem a short time ago and charged with burglary. He was seen to enter the home of Harry Henderson on North Ellsworth ave. Three rings found in Quirk's possession were said to have been taken from the Henderson home.

Kushing was given a sentence of from one to five years in the Ohio state penitentiary.

William Johns, formerly of Salineville, who was returned to Columbiana county from Florida by Police Chief T. W. Thompson of Salem, refused to enter a plea in charges of uttering and publishing a forged instrument. Judge Jones entered the plea as not guilty. Johns refused legal counsel, stating he would defend his own case. Bond was set at \$2,500.

Restum Morris, Leetonia, pleaded not guilty to charges of burglary and larceny. This indictment was returned in connection with the disappearance of stock from the Fair store in Salem, which was closed under bankruptcy proceedings. Bond was set at \$2,000.

Alex Fratilla, of Salem, was released on \$200 bond after pleading not guilty to assault and battery charges.

Others arraigned are: Frank Filaphone and Nick Del-sandro, Chicago, pleaded not guilty (Continued on Page 4)

FLEEING BOYS DIE IN RIVER

Attempted Long Swim In Effort To Evade Policemen; Were Looting Home

PAINESVILLE, April 21.—Police recovered another attempt today to recover the body of the second of two boys who drowned in Grand river, Saturday night while fleeing from officers.

The body of Joseph Saari, 10, was recovered shortly after the boys drowned, but efforts to find the body of James Saari, 10, over the week end were unsuccessful.

Police said the two boys and Frank Saari, 18, brother of Joseph, were looting the home of Mrs. W. E. Breed in Painesville, when they were surprised. They attempted to escape by swimming to the Fairport side of Grand river, but only the elder Saari crossed safely. He was arrested later and was free on bond today pending filing of charges.

Students Compete In Scholarship Contest

LISBON, April 21.—Seventeen seniors in four high schools in Columbiana county took part in a state wide examination at the David Anderson High school, Lisbon Saturday, and three qualified to enter a district contest, the three winners of which will receive college entrance certificates.

Those who attained three high grades were Thomas Carothers, Leetonia; David Nichols, Columbiana and Ruby Winder, Leetonia. Their examination papers graded in the above order.

PUNISHMENT

A recent tragedy at one of the London prisons has forced into public attention an interesting remnant of medieval justice which is still measured out liberally in England.

A young prisoner, who was being led to the "triangle" to receive fifteen lashes from the "cat-o-nine-tails," flung himself to death on a stone floor twenty-five feet below rather than submit to the ordeal.

Led by George Bernard Shaw, reaction from the more liberal portion of the public was quick and definite: The world has progressed too far for administration of this sort of justice. Another portion of the public, as might have been expected, rose to the defense of the "cat."

The latter group is proud of the scarcity of crimes of violence in England and believes that fear of the consequences is the principal reason for that scarcity.

There is, beyond any doubt, justification for the contention that "fear" of the cat-o-nine-tails is a very good reason for keeping out of the hands of the authorities. Few prisoners are able to take their whole sentence at once, so exonerating is the pain inflicted by the corded lashes of the "cat."

After being flogged to a triangle and examined by a doctor, the first stroke is given.

Punishment is continued only as long as the prisoner is able to receive it and should he show signs of collapsing, it is stopped—for the time being.

It is interesting to note that Webster defines the cat-o-nine tails as a device used "formerly" for punishment.

It is true that whipping, and it is still done in the United States, is a medieval form of punishment. Whether the lash be of the ordinary kind or a devilishly knotted invention such as the cat-o-nine-tails, it is an old-fashioned way of meting out punishment.

Yet, there are few who will deny that a public whipping in the case of an adult, or a private whipping in the case of a child, has its good points.

It seems that the fault lies, not in the act, but in the wielder of the lash. Few persons know when to stop.

Up to a certain point, the effect on the culprit may be beneficial; after that it becomes an act of brutality. Adult whipping is notoriously overdone and always has been, probably because it is motivated more by a desire for revenge than any idea of correction.

In no form of punishment is the folly of a definite sentence to fit all cases more apparent.

The argument that severe punishment is the best deterrent to crime still will be argued on Judgment day in all probability despite the fact that millions of men and women, anticipating that event, find it easier to be good in the hope that they will avoid the pain of a possible consignment to the nether regions.

CITY-COUNTRY DWELLERS

The cracker barrel and the stove, summer and winter meeting places of the village sages, are found to be losing their unique distinction in the results of census figures reported from eight states of the Middle West, including Ohio.

The popularity of rural life may be increasing but the prevalence of small incorporated groups is decreasing.

In the state of Missouri there has been an eighty per cent decrease in village populations; in Minnesota a seventy-five per cent decrease; in Illinois a sixty-two per cent decrease, and in Ohio and Michigan a thirty per cent decrease.

Even in the last two states the smaller percentage of decrease takes on more importance when it is

reckoned that the total population has increased appreciably.

The reasons for this slackening off in village populations are simple. They are to be found in the present-day status of the village church, the general store, the blacksmith shop, the once-a-week moving picture show, the opera house, the grist mill—the nucleus of village life.

These institutions are slowly losing their usefulness. Good sermons can be heard over the radio or in the larger churches in the nearby city.

Department stores in the city have more to offer than the general store ever had. It is easy to drive into the city to go to a theater and easier yet to stay at home and listen to the radio or the phonograph.

Most of the village grist mills long ago lost a one-sided battle with the urban mills and their network of elevators.

The radio, the telephone and the family automobile have eaten out the very heart of the village—its unity and importance as the provider of life's necessities.

Elasticity of transportation and communication have started a cleavage which eventually will classify every citizen as either a city dweller or a farm dweller.

What Others Say

DISSATISFACTION WITH THE PRIMARY

Attracted by the attack which is being made on the primary election system in Iowa, the Atlanta Constitution is moved to voice what unquestionably is a widespread sentiment throughout the South. The Constitution, after remarking that long and devious experiences with the primaries have shown that they have largely lost their appeal to the common sense of the people, adds:

"They have not improved the caliber and qualities of public servants. They have invited greater and more pervasive corruption funds to purchase choices at the primary polls. The state and national office-buying scandals accompanying them have been more and greater than before the primaries came into vogue."

This is a mild statement of fact. A good many other indications of the thoroughly demoralizing effect of the primary system on politics and government might be mentioned without difficulty, among them the extreme reluctance of responsible and dependable men and women to seek elective office. Now and then a person of the right sort will make the plunge either because he has an acute sense of duty or because he finds especially favorable conditions; but by and large, the "new men" who go into politics are of a sort that would scarcely have been tolerated under the old convention system, and certainly would never have reached more than minor offices. Now some of them get places, just short of the presidency, and state and municipal offices are largely filled with mediocrities and worse, most often with worse.

The Constitution thinks that a general war upon the primary system will be made sooner or later, and that while the decision may vary from state to state, "eventually there must be evolved either more popular and incorruptible forms of primary election, or a general reversion to the old and easily improvable convention system." We would like to be equally optimistic. For next to the prohibition question the primary election question probably is as serious a one as any now before the American people. It affects the whole welfare of the country, including the machinery and enforcement of criminal law.—Detroit Free Press.

A DAILY SUN BATH

There is an old Italian proverb which says: "Where the sun does not go the doctor does." From the earliest times the sun has been known to give wondrous benefits to animals and to man, plants of the field, and to all living things.

The great benefits that lie in the sunlight as creators of health and in prevention of disease are beginning to be better known in the light of present-day research. In the past the beneficial action of sunlight has been attributed in large to heat rather than to light. Now we know that the action of light in killing germs is of immense importance in promoting a healthy condition of the tissues in man and in animals.

Observe the domestic and farm animals and poultry. They seek out the sunlight. It adds to their content. Farm animals, as the farmer knows, require a certain amount of direct sunlight for physical well-being. And so does the human being.

Sunshine is essential to life and health. A daily sun-bath would restore many a semi-invalid to health properly taken. The trouble is that people will not take the time and trouble to get the direct rays of the sun.

If we only could have just the thing needed our houses would be filled with windows. They would be thrown open wide to let in the air and the full rays of the sun.

How many know the powerful disinfectant that the sun is? The germs of disease wither with long exposure to the sunlight. Take tuberculosis. The doctors tell us that in some localities this disease is on the increase. But tuberculosis is curable. With fresh air and sunshine good food and complete rest this disease can be put to rout.

Rickets is one of the most common diseases of childhood. Lack of fresh air and sunshine and under nourishment are responsible for thousands of cases annually. This deficiency disease has been successfully overcome by the right food and by cod liver oil, or "bottled sunshine," as it is called.

Now that the spring and summer months are upon us, there will be opportunity for everyone to get out into the fresh air and God's sunshine. He cut off doors all you can. After the long winter months, many a child and thousands of adults need the stimulating and healing powers of the sunlight.

It is remarkable what recuperative and disinfecting powers lie in the sun's rays. For the well person, for the semi-invalid and for the bed-ridden patient, the direct rays of the sun are life-giving. Diseases are benefited by it. You cannot be physically fit unless you have it.

Much experimenting is going on with certain kinds of window glass which enable the ultra-violet rays these life-giving rays of the sun, to penetrate. It is well known that ordinary window glass does not enable these rays to filter through. But as yet such glass is not in common use because of the expense.

Light therapy is being carried on, too, by means of the various lamps. All these things are helpful, but rich and poor alike can have God's good sunshine at this time of the year.

Make a good resolution to be out of doors in the sunshine every day, every moment possible, in the coming months. Build for health and happiness.

Conflicting planetary configurations are seen in this day's lunar chart. Although there are indications of financial benefits, with some promise of fulfilled ambitions and advancement or growth of business, yet there are also some hazards through litigation, misrepresentation, fraud or slanderous attack. It would be well to be on guard against these and to safeguard the personal relations and standing as the private affiliations are also in peril. Those whose birthday it is may make some progress and achievements during the year, but they are also beset with the menace of law, fraud, duplicity and slander. They should be on guard against these adverse conditions in the business and personal life.

Highlights Of Ohio History

By J. H. GALBRAITH

The proud claim for Ohio that as part of the old Northwest she was born free, slavery having been forever barred from that territory and the states that should be formed within it, cannot be entirely sustained. As a matter of fact slavery did exist within the territory when the ordinance of 1787 was enacted and it continued to exist with the acquiescence of governors, legislative assemblies, courts and even national government.

The French settlements at Vincennes, Detroit and other places in the Northwest held slaves, and had held them for a long time prior to the enactment of the ordinance establishing a government over it. When France ceded the territory to England it was stipulated that the French settlers within the territory ceded were to be guaranteed in the possession of their property—slavery being specifically mentioned. Furthermore Jay's treaty with England, made in 1794, pledged the United States in turn not to interfere with the property of former subjects of the crown living within the territory, including their slaves.

Armed with the guaranty given by the English to the French, agents for French slave owners at Vincennes went to General St. Clair, the first governor of the Northwest territory, pleading that the anti-slavery provision of the ordinance was not held to interfere with their vested rights in slaves, and they were told by St. Clair that the prohibition could not apply to slaves held prior to the enactment of the ordinance.

The first constitution adopted by the state of Illinois contained a similar provision to take care of the owners of slaves who were already located within this state, and that was approved by congress when it accepted the constitution and admitted the new state.

Indiana at first followed the anti-slavery provision of the ordinance when her constitution was prepared, but later on tried to have it changed so as to permit this modified form of slavery and General Harrison who had been governor of the territory urged that it be done. In the light of this it seems rather that Ohio was anti-slavery not because she had to be, but because her people looked upon the institution and pronounced it wrong morally, industrially and economically. She was not guided into it by leading strings manipulated by the 16 states that preceded her into the union.

CONSTRUCTION IN FIVE-YEAR HIGH, SECRETARY SAYS

More Than \$303,000,000 Awarded In First Three Months

WASHINGTON, April 21.—Construction contracts totaling more than \$303,000,000 awarded during the first three months of the year were interpreted by administration officials today as reflecting the appeal of President Hoover for increased building as a means of business stabilization.

The total was announced by Secretary Lamont of the commerce department with a statement that it was the highest for that period in five years and an increase of 55 per cent over the first quarter of 1929.

Contracts for public buildings totaled \$22,337,000 as compared with \$24,318,000 in the corresponding period of last year. Lighting systems awarded contracts aggregating \$20,458,000 as against \$5,864,000 in the first quarter of 1929, an increase of 249 per cent.

An increase of 128 per cent was noted in railroad construction, the figures being \$70,648,000 for the first three months of this year and \$30,973,000 for the same period of last year. Contracts for hospital and institutional construction moved upward from \$22,588,000 last year to \$39,264,000 this year.

Contracts for park development fell 127 per cent, waterfront development 73 per cent, water supply systems 70 per cent, incinerators 60 per cent and bridges 47 per cent.

Decreases of 55 per cent in the construction of railroads, buildings 23 per cent in park buildings, 14 per cent in sewerage systems and three per cent in educational buildings were reported. Residential building lagged behind last year by 48 per cent, commercial buildings were 15 per cent off and industrial buildings 17 per cent less than a year ago.

Church Contract To Be Awarded Tonight

The contract for the construction of the new Holy Trinity English Lutheran church building will be awarded tonight, Rev. G. D. Keiser, pastor of the church announced this afternoon.

Members of the church building committee will meet with the architect for a consideration of plans and bids from contractors at the church.

Construction of the new edifice was recently approved by the Board of Missions and Church Extension of the Ohio Synod of the United Lutheran church in Columbus.

MURDERS

(Continued From Page 1.)

disciples. They saw the crime both as a refutation to the reported "peace agreement" in gangland, and as a challenge to the Capone over-ship.

There were political and labor racketeering angles too, the racketeering possibilities being regarded as particularly significant in view of persistent word lately that Capone had ambitions to "muscle" into labor organizations.

Wakefield, police heard, was a protégé of Dan Serritella, city sear and Republican power in the First ward. Serritella has been regarded as friendly to Capone. Wakefield and Del Re were active in recent election in Serritella's successful campaign for committeeman.

A man whose name was withheld by police said Wakefield on Saturday night had attended a meeting of the bread, crackers, yeast and pie wagon drivers union, Local No. 734.

Capone planned to take over the union through Wakefield, the man said. "I heard some say following the meeting 'we'll have to kill him yet; his body will be found in an alley before long'."

All three dead men were known to the police, but none of them so far as the records reveal, ever had any serious trouble with the law.

The Blue Hour saloon was the place where Jimmy Vinci and Joe Granatta shot it out in a death duel years ago. Vinci was the driver of the death car in the assassination of "Boss" Enright, labor leader. Granatta was one of the first of the gang machine runners.

Reopen Saloon Week Ago

When Del Re and Special reopened the Blue Hour saloon a week ago it was bombarded with bricks. It was apparent that someone had warned Del Re against opening, for Del Re, viewing the shattered glass, was heard to say: "To the devil with them. They can't stop us."

It was a simple matter for police to reconstruct yesterday's crime. Wakefield behind the bar was counting the day's receipts. Del Re was behind the cigar counter. The assassin knocked at the locked door. The fact that he was admitted indicated he was known there.

He walked to the bar, tossed out a dollar bill and ordered beer. Wakefield drew it and handed the man his change from the stack of quarters on the counter. He then turned back to counting the receipts. The man whipped out a pistol and fired one shot into the back of Wakefield's head.

Flee From Scene

Del Re, unarmed, sought safety in flight. He leaped over the cigar counter and ran for the door. A part of his cuff link torn from his sleeve as he vaulted the counter, was found on the floor. The slayer dropped him as he had dropped Wakefield, with a bullet in the base of the brain.

Special had been in a rear room. He too, was unarmed, but he snatched up a clasp knife, seized a plaster saint and pushed upon the killer from behind. The mirror behind the bar revealed him, and the assassin whirled, firing into Special's chest.

Writer Asserts Bolshevik Danger Is Underestimated

Atheists' Recent Offensive Against Church Opens Eyes of World to Fate of Any Nation, Says Observer

By FRANK E. WISSNER

MUNICH, April 21.—The Russian atheists' late offensive against the church has opened the eyes of the world to the fate which awaits a civilized nation, if the red flood of Bolshevism should engulf it. Nevertheless the danger the pernicious activity of the official, unofficial and voluntary propagators of communist ideas constitutes for the civilized nations of the world is greatly underestimated.

The evil omen of the red sparks which the Russian conflagration is showering over the world is not being taken as seriously as it ought to be, partly because the danger does not seem imminent, partly because the tactics of Bolshevism are not sufficiently known to the general public. We have become accustomed to believe that the Bolshevik advance toward Western Europe would necessarily have to take the form of an open offensive.

Pleading to Despotism

Undoubtedly this method of spreading the "blessings" of the communism throughout the little appendix of the great Asiatic continent, called Europe, would be very much to the liking of the gory despots of the Kremlin. But they know too well that their chance is too small today and that a failure would mean the end of their rule in Russia. The fortress is still too strong to be taken by open assault, but the foundations are hollowed out by one of the strongest characters already in many places and patience of the Russian.

The Bolsheviks are past masters in the underground methods of warfare. They have learned and practiced that art under the most difficult and dangerous circumstances imaginable, many decades before their patient work resulted in the overthrow of the empire. If we want to fathom the methods of revolutionizing a country, it is best to recall the methods the Bolsheviks—or Nihilists, as they were called before the revolution—employed so successfully in the very face of the powerful imperial secret police of Russia.

They were far too clever to commence their work of destruction with open political propaganda. They followed the famous Russian principle "It's a war" (mixing with the people), went into the mines, the factories, worked as stokers in the steamboats, pulled the freight ships up the Russian rivers, lived among the poorest of the poor and sank the seed of dissatisfaction into the soul of millions who up to then had been content with their meager earnings.

Only when the discontent had spread widely enough among the lower classes, they began to direct the proletarians' hatred against state and society. The communist propaganda had assumed tremendous dimensions long before Russia through the murder of Alexander II, became aware that the ground was beginning to rock.

Years of Preaching

It took many, many years of preaching class hatred before the millions of malcontented were recruited, who eagerly waited for the chance to overthrow the state in which they had been taught to see only the brutal exploiters of the proletarians. Possible their time, in spite of the last war, would not have come so soon, had not the Nihilists' underground work been aided so effectively by the Russian intellectuals. The most lofty and noble state and society. The literary Utopians of the country wrote against plans of that period, excelled in sharp criticism of the established order and finally arrived at a theoretical "ideal state," which comes dangerously close to Nihilism.

That such an ideal form of self-government without enforcement of the state's authority could not be realized, except by an ideal community, never entered the need of these ideologists. Their high ideals were perverted by their followers. Liberty became libertinism, fraternity class war, equality the leveling down to the lowest standard. The French revolution is another example of such intellectual self-undoing.

Long before the Bastille was stormed by the bloodthirsty mob, French writers and thinkers of splendid intellect had unknowingly worked toward that end. Voltaire, Diderot, d'Alembert and Rousseau are their most prominent representatives. Their brilliant style and lofty ideas intoxicated the French aristocracy and society, which never suspected that the caustic criticism of the state would prepare the way to the guillotine.

Rousseau, who carefully distinguished between the "volonte de tous" and the "volonte generale," was no communist. Though he revolutionized the thought of his time, he was not a revolutionist but he had a great and dangerous pupil in Robespierre.

Dangerous Pupil

Karl Marx, the world-wide idol of socialism, when expounding his anti-capitalist theories of economics never thought of abolishing capitalism by brute force, but he too had a great and dangerous pupil in Lenin. In either case the wisdom of great minds was drowned in oceans of blood, for it seems to be the law of political gravitation that the most extreme and ruthless party gains supremacy, whenever the theories of radical social reform are put to the practical test.

Today many splendid writers in Europe and in the United States are playing with communistic ideas. It seems to be the fashion again to be radical. I refrain from quoting the title of an American book on Soviet Russia, whose author considers the atheist system of education "the most intelligent I have ever seen, because it is designed to liberate the human mind from dogma of every kind."

Social conditions are far from being perfect in Europe as well as in the United States, but to believe that a social revolution can improve economic conditions is a Utopian notion. To accept Bolshevism wholeheartedly is the privilege of the law in anchor, but to state that not only Russia but the rest of the world may gain from Bolshevism is a dangerous deception. Little good has come from Bolshevism during the 12 years of its rule in Russia and that little has been paid for with the blood of so many millions, that even the greatest financial success of the Bolsheviks' economic programs could not justify the price.

It is a serious self-deception to believe that only the bomb throwing kind of Bolshevism is dangerous. The path makers of Bolshevism, who deliberately or unknowingly infect the minds with the germ of communism or diminish the danger of such revolutionary experiments are more to be feared than those who play the last act of the drama. The intellectual propagation of Bolshevism has made considerable progress in Europe. It is still in its beginning in the United States, but it is gaining ground and it may be well to recall the lesson of history: The nation which loses the fight against cultural Bolshevism will be spared the bloody consequences.

Forty Arrested At Border Cock Fight

EAST LIVERPOOL, April 21.—Forty men were arrested while 100 others escaped yesterday afternoon, when Ohio and Pennsylvania police raided a cock fight at Beaver Creek, east of here.

Forty game roosters valued at \$1,000 and a large quantity of alleged liquor were confiscated by the raiders.

The suspected operator was among the 100 men who fled when the raiders swooped down upon the scene. They found eight dead chickens in the pit. The prisoners were released on \$10 bond each.

CAPONE ARRIVES IN MIAMI HOME

Federal Injunction Saves Chicagoan From Being Turned Back

MIAMI, FLA., April 21.—Having arrived quietly under protection of a federal injunction, Alphonse Capone, Chicago racketeer, was back at his Palm Island estate today "for a rest which I think I deserve."

An injunction granted by United States Judge Halsted L. Ritter cleared a path through Florida for Capone's approach to Miami by restraining sheriffs of 30 counties from molesting him without a warrant. Governor Calton previously had issued instructions to all of the state's sheriffs to arrest Capone and escort him to the state line should he appear in Florida.

"I have no interest in politics, neither in Chicago nor Miami," Capone said, "and I am here for a rest which I think I deserve. All that I want is a fair break. I have done nothing in violation of the law in Miami and will not. All I wish is to be left alone and enjoy the home which I have purchased here."

SEVERE INDIGESTION BREAKS HEALTH

Boils and Skin Eruptions, the Result of Toxic Condition. Owa-Ton-Na Corrects These Conditions in A Short Time

Those who suffer with severe indigestion will be interested in the case of Mrs. Lillian Kissenberger, 212 Orchard Ave., N. E., Canton, Ohio. She says: "I have suffered so much misery from indigestion, gas and bloating spells, constipation and pimples and boils that I certainly was getting discouraged. Nothing that I took or did seemed to help. My system must have been full of poison because I certainly felt miserable."

"Almost as a last resort, I tried Owa-Ton-Na since so many people had recommended it to me. The first bottle showed quite an improvement on my stomach; my bowels began to function normally. Food didn't disagree with me near as much. Gradually I could notice a difference in my general condition, energy started to return. Now I can eat almost anything I want without suffering afterwards. Gas attacks used to cause my heart to flutter and make me short of breath. This is all gone and my stomach feels fine."

"My appetite is improved wonderfully. I used to suffer for days at a time with headaches but I haven't had a headache for weeks now. What pleases me as much as anything else is the fact that pimples and boils which I didn't seem to be able to get rid of are now practically gone."

Owa-Ton-Na assists nature in a natural way to eliminate the disease producing poisons from the body in order that overworked organs may be restored to more normal function with a resultant restoration of better health. Owa-Ton-Na is sold in Salem at J. H. Lease Drug Co. Three Stores—Adv.

Boy Saves Lives Of Three, But Whole Day Is Ruined

Cleveland, April 21.—Rescuing people who upset their boats has to be done, supposes 15-year-old Johnny Pettit, but it certainly spoils a fellow's Easter plans.

Johnny had an important date to take two girl friends riding in his outboard motor boat yesterday afternoon and he spent the whole morning cleaning and tidying up the boat.

He was giving her a zippy trial spin down Rocky river lagoon when he saw another outboard boat try too sharp a turn about a quarter of a mile away. Johnny sped to the rescue and found two men floundering about in the water holding a woman on top of their overturned craft.

Johnny hauled them aboard, but their wet clothing matted his boat all up and he landed them with out even bothering about their names. He had to make his boat spin and span again, and that time it started to rain and there was the whole afternoon ruined.

Stork's Arrival In Time Boosts Town

MINNEAPOLIS, MINN., April 21.—Thanks to a last minute arrival of the stork, the village of Sturgeon Lake, in Pine county, Minnesota, was enabled to show an increase in population in the 1930 census.

Figures announced at district headquarters today gave Sturgeon Lake 210 residents as compared with 208 in 1920. Two babies were born just in time to be added to this year's census count.

UNEMPLOYMENT REPORTS GIVEN

New York Plans On Work Year Round; Will Continue Study

NEW YORK, April 21.—Recommendations for a course of procedure to provide steady employment the year around are incorporated in a preliminary report of Governor Franklin D. Roosevelt's unemployment committee, published today.

The report said the committee had examined the plans and experiences of more than 200 leading corporations engaged in relieving the unemployment situation.

The first recommendation "is that steady work the year around be incorporated in business men's thinking so that it may assume major importance in the employer's daily planning and actions."

More attention by state, city and town governments to planning their construction and purchasing activities so that important contracts may be held back in time of prosperity and pushed forward in times of depression is recommended.

For immediate action the committee endorsed the recommendations of the merchants association of New York, which included working full force part time rather than reduced force full time and the "manufacture of stock to the limit of economic wisdom" as well as a "diminual wage or two weeks' notice."

LAKEWOOD, N. J.—Nickels, instead of dimes, are the latest from John D. Rockefeller. He passed out several to children after Easter services in the First Baptist Church.

RECEIVED HEARTY WELCOME

Crowds of chronic sufferers kept "Sykodoner Man" and two assistants busy until near midnight. Will return Tuesday.

FROM SORROW TO JOY

After All Else Failed Famous Sykodoner Quickly Relieved Tiffin Lady From Her Terrible Sufferings

Mrs. Arden Schatzinger, 88 Mohawk st., Tiffin, Ohio, suffered with a most peculiar affliction—ribs, neck, shoulders, back, getting out of place. Her sufferings were intense.

Her only relief, temporarily, of course, was a hand manipulator who replaced the parts—day after day, including Sundays, for many months. The following day the parts were out of place—as bad as ever, and the same old suffering in full evidence. Mrs. Schatzinger could no longer bear the waste of time, expense; nor to endure the prolonged suffering. It was wearing her out. She did not know where to look for help, nor what to do—until one of her dear friends told her what the "Sykodoner Man" and lady assistant had to offer discouraged chronic sufferers. With this renewed hope, like a drowning man grasping at a straw, she called at the Sykodoner offices. In five minutes from the time the wonderful Sykodoner was applied, without shock, inconvenience, or even the use of hands, Mrs. Schatzinger's misplaced parts had been replaced, her sufferings practically ended; and what is still more remarkable and true, they have remained so to this day. Now what would you call it—a miracle. Yes, it surely is a miracle—not a supernatural one, but a modern miracle. It may do as much for you—who knows? It will cost you nothing to investigate.

A half hour later the drone of a plane could be heard at Roosevelt field. The lights of their plane showed no apparent bump as they slipped down to earth again.

The crowd broke through the lines and streamed out across the field after the plane, but the col-

The Sykodoner is an invention based on the wonderful discovery of Prof. Otto Warburg, Germany, one of the most eminent biologists in the world. It uses neither drugs, serum, surgery, baths, rubbing or faith. It is the "wonder of the age"—there is nothing else just like it. It's unprecedented success is due to the fact that it does not merely treat effects of disease. It aims at the cause. Toxemia, basic cause of practically all diseases and removes it. Regard-

less what your ailment is, how long standing, or what else may have been tried and failed—proves or disproves, absolutely nothing at all. See the "Sykodoner Man" at once and ask for free demonstration of the most mysterious and amazing phenomena of all your life. You will never be able to explain it. Yet it is here. Take advantage of it while you may. No one is turned away—rich or poor.

Call early and follow the crowd to cozy Sykodoner office parlors in Hotel Metzger, Salem, Tuesday. Hours: 8 a. m., to 8 p. m. Phone for free home demonstration. Regardless what your ailment is, or how long standing, you cannot afford to miss investigating, at least.

Coppers Hat Copped As He Is Guardian For Easter Finery

EVANSTON, ILL., April 21.—Officer Charles Boulanger went to church Sunday—to St. Luke's Episcopal church—on business.

He stood guard over the parishioners hats and coats. Even in churches they have policemen. They have a nice, cozy cloakroom at St. Luke's and Boulanger, finding a spare hook, hung up his own hat beside the toppers, debars, and hats of some of Evanston's best people.

After the services, he telephoned the police station.

"This," he said, "is Boulanger. I am at St. Luke's Episcopal church. I have been watching the hats."

at 3:42:35 and landed at Roosevelt field at 11:11:52. The total elapsed time was 14 hours, 45 minutes and 32 seconds.

Testing High Flying

Colonel Lindbergh, who made the flight to test the possibility of commercial routes at high altitudes believes that such flights will follow along the trail he blazed across the country.

"This is only one flight," he said, "and I hope to make others. I can say nothing at this time on the result of only one experiment. However, I believe transport flying in the future will go to higher levels, first the air mail and later passenger planes."

He said they flew at from 10,000 to 15,000 feet altitude most of the way, except for the last stretch into New York.

The colonel gave to Mrs. Lindbergh much of the credit for the actual technical details of the flight. She did the navigating, he said, kept the charts, and occasionally handled the controls. Their plane is equipped with dual controls.

Both the colonel and his lady were smiling on arrival as they faced a battery of cameras and a crowd of between 1,500 and 2,000 persons which had waited since early afternoon for his arrival. His face was dirty and appeared drawn but Mrs. Lindbergh looked as fresh as though she had just stepped out of their home for a stroll down Park avenue.

The colonel clambered out of the forward cockpit and aided mechanics in wheeling the plane into hangar where room had been made for it.

Mrs. Lindbergh remained in the plane, her head ducked down to avoid the stare of the curious crowds which attempted to push their way into the hangar, until all but a handful were elated out.

"Splendid," said the desk sergeant. "I hope you enjoyed the services," replied Boulanger, "were O. K. The preacher came out after the services and complimented me and thanked me for watching the hats."

"That was sweet of him," said the sergeant. "We'll make you official hat watcher on your beat. Now you can come in."

"But I can't," said Boulanger. "It is raining and I might catch cold."

"How Come?" inquired the sergeant.

"Somebody," replied Boulanger, dejectedly, "stole my hat."

WRONG SWITCH BRINGS EFFECT ON BROADCAST

CHICAGO, April 21.—Radio station WJBT was broadcasting the services of the Paul Rader gospel tabernacle last night, and everything was going along all right until suddenly, to the listening public, there came the words:

"Your throat. Your eyes! Don't struggle! I'm stronger than you are!"

Hundreds of telephone calls ban pouring into the tabernacle switchboard. The public was offering its assistance to put down whatever kind of riot might be going on.

Someone at station WJBT had accidentally thrown a switch, superimposing the words of a New York chain melodrama upon the gospel broadcast.

Police Investigate Mystery Explosion

CLEVELAND, April 21.—The Shaker Heights home of Jacob Silverstein, real estate dealer, was wrecked by a mysterious explosion which set fire to two adjoining houses early today.

Accumulated gas was believed responsible, but authorities also were investigating the possibility that two men seen loitering in the neighborhood for the last two days might have plotted the explosion.

DEATHS

WILLIAM H. CRAWFORD

Funeral service for William H. Crawford, 78, who died at 1:30 p. m. Sunday at the home near Williamsport, will be held at 2:30 p. m. Tuesday at the Clarkson church in charge of Rev. B. H. Shaddock of Rogers.
 Mr. Crawford was born Nov. 22, 1851, on the farm where his death occurred, and having spent all his life in that vicinity he was very well known in Columbiana county. He was united in marriage with Elizabeth Gaston on Dec. 15, 1870, by Rev. Delzell of East Liverpool. He was a member of the Methodist church of Williamsport.
 Surviving are his widow; five children, Edward H. and Philander G. at home; Mrs. Roy O. Baker of Ashland, H. Jefferson Crawford of Elkhart and Mrs. Harry Pepin of East Liverpool; 11 grandchildren; 15 great grandchildren; and two great great grandchildren.

ISAAC MURPHY

NEW WATERFORD, April 21.—Isaac Murphy died at his home, north of here at 8:45 a. m. today. Death was due to infirmities of age.
 Mr. Murphy was born in New Castle, Pa., on May 20, 1851. He was married to Miss Martha Shepard of Salem in 1900 and lived here since marriage.
 He is survived by his widow, two sons, Charles, of Beaver Falls, Pa., and Preston, Girard; two sisters, Mrs. William Ball, Pittsburgh, and Mrs. Lydia Shazler, New Castle, and a brother, D. H. Murphy, of Canton. Eight grandchildren and four great-grandchildren also survive.
 Funeral will be held at the Presbyterian church here at 2:30 p. m. Wednesday. Rev. J. T. Cotton will be in charge. Burial in New Waterford cemetery.

School Children Are Preparing Exhibition

LISBON, April 21.—Rural school children are now active in preparing work that will form a major part of the school exhibit at the county fair next September. It was announced today by County Superintendent of Schools H. C. Leckard.
 The exhibit as a whole is among the largest of any displayed during the fair season.
 Several rural schools have completed work that is to be exhibited, and the groups have been assembled at the office of the county board of education, where they will be retained until removal to the fair grounds.

To Open Rail Route

WASHINGTON, April 21.—Plans of the St. Louis-San Francisco railroad and the Chicago, Rock Island and Pacific railway to open a through route between northern Texas and southwestern Oklahoma to Fort Worth and Dallas were approved today by the interstate commerce commission.

CARD OF THANKS

MARKETS

MARKET REACTIVE

NEW YORK, April 21.—The stock market leaned toward reaction as trading was resumed after the 3-day Easter closing today, despite powerful operations for the advance in amusement and food issues, several of which rose 1 to 5 points to new highs for the year.

American telephone sold off 5 points, getting down nearly 20 points below the high made before the announcement of rights last week. Detroit, Edison and Houston all lost 5 points, and such shares as American tobacco B. Johns Manville, underwood Elliott, General Electric, Air Reduction, Union Carbide, and American Car and Foundry, lost 2 to 4 points, the last named reaching new low ground. Coppers were again heavy. Anaconda, Kennecott, and Calumet and Hecla sagging more than 3 points to new 1930 lows.

Fox film was a strong spot, rising 5 points to new 1930 high ground, reflecting announcement of refinancing. Lewes rose about 3 and general theatres 2, in sympathy. Radio rose fractionally to new high ground for the year. National Dairy, Kraft Phenix, Corn Products and Shattuck sold up about a point each to the best levels of the year. J. I. Case, after sagging 4 1-2, rallied 7 to a new high.

Call money again renewed at 4 per cent.

GRAIN CONDITIONS

CHICAGO, April 21.—Material setbacks in wheat values early today resulted from increased selling based chiefly on reports of beneficial rains in sections of the south-west and west. Forecasts of freezing temperatures were virtually ignored. Opening unchanged to 3-4c lower, wheat afterward underwent a general downturn. Corn, oats and provisions were likewise easy, with corn starting unchanged to 1-8c up, but subsequently receding.

MOVIES

"SALLY"
At The Grand
"Look for the Silver Linings" and "A Wild, Wild Rose," sung by Marilyn Miller and her cast in the original stage version of "Sally," are sung on the screen at the Grand.
Marilyn Miller is star of the picture as she was star of the most successful of all musical comedies. "Sally" is Miss Miller's first screen vehicle, and is an all-dialogue picture, with singing and dancing. Alexander Gray plays opposite the star, and the big cast includes Joe E. Brown, T. Roy Barnes, Ford Sterling, Pert Kelton, Jack Duffy, Maude Turner Gordon and E. J. Ratcliffe.

"SEVEN DAYS LEAVE"
At The State
"Seven Days Leave" is the second all-talking picture for Gary Cooper. It is his first picture as a star.
"Seven Days Leave" is a reproduction of Sir James M. Barrie's play, "The Old Lady Shows Her Medals." Beryl Mercer, who supports Cooper, made her talking screen debut in "Three Live Ghosts." United Artist hit, in which she won immediate favor with screen audiences by her remarkable character work as Mrs. Gubbins.

In the film production "Seven Days Leave," Miss Mercer plays the same role which she established on the legitimate stage in the original Barrie plays, in London and New York.
Cooper wears the uniform of the Canadian "Black Watch" regiment throughout the picture. He is strikingly handsome in the kiltie regalia of this typically Scotch soldiery.

Probate Court Activities

An application to sell real estate has been filed in Probate Court by Attorney George L. Lafferty, administrator of the estate under the will of the late Susan M. Elder, deceased, the petition naming Mrs. Martha Getty and 68 others as heirs. The property to be sold is a farm of 104 acres in section 10, Centre township. The bond of the administrator has been placed at \$8,000 and has been filed with Judge Lodge Riddle.

Elmore P. Umstead has been appointed by the court as trustee of the property of David Koons, a former resident of East Liverpool, but whose present whereabouts are unknown. Koons owns a farm of 172.4 acres in Columbiana county, and this will be under the management of the trustee.

The court has approved and confirmed the report of Carl F. Beyer, executor of the estate of the late Max W. Beyer.
In the estate of the late Robert Webb of East Liverpool, Alexander Osborn has been appointed administrator by the court, with his bond fixed at \$1,000, which has been filed. The estate will not be appraised.

The resignation of A. A. Ramsey as administrator of the estate of the late Catherine Rollins has been filed with the court and accepted.
Acceptance of the resignation of Bell Lee as administratrix of the estate of the late Thomas Lee has also been filed and accepted by the court.

Appointment of Minerva L. Porter as guardian of the estate of Raymond and Floyd Porter, minors, has been entered in Probate. The bond of the guardian has been placed at \$360.

Following her appointment as guardian of Francis R. Mast and Earl Mast, minors, Hazel R. Mast has filed a \$1,200 bond with the court.

The first and final account in the estate of the late James Goodwin has been filed in probate by Annie Goodwin, executrix. June 6 has been scheduled as the date for the hearing.

On the same date there will be a hearing in Probate on the first and final account of George Wilson, as executor of the estate of the late Elizabeth Wilson.

June 6 has also been set down as the date for the hearing on the third account of Wilhelmina R. Randall, guardian of Amos W. Randall.

An order permitting the sale of certain stock has been made by the court in the estate of the late Mary E. Paxson of Salem, of which O. D. Paxson is the administrator.

Salem High Tracksters Overwhelm McKinley, Akron Central

THE DAY In Sports

SALEM COMES THROUGH SCHMID STARS AT STATE PALESTINE HIGH STRONG

SALEM HIGH will be one of the strongest contenders for the north-eastern Ohio district track and field title when schools from this section compete for the honor at Reilly athletic stadium. Coach Floyd Stone's athletes, considered underdogs in their Saturday's meet with Canton McKinley, definitely placed themselves on record as being a potential contender, for Canton was overwhelmed and the Stonemen displayed prospects of an outstanding team through exhibitions of strength in the majority of events.

It was a great start for Stone's lads and now his squad will be pointing for victory in this Friday's meet here, the first annual Salem High night relay carnival in which more than 20 schools will be competing.

JOE SCHMID, former star Salem High football and track performer is well on his way towards earning a track letter with Ohio State's star team. Schmid took first place for the Scarlet and Gray in its meet with Ohio Wesleyan last week, heaving the discus 125 ft. 7 in. Saturday he took second place in the meet with Pittsburgh, tossing the platter 125 ft. again.

EAST PALESTINE will make the going tough for Columbiana county teams in this year's county competitions. Russell VanFossan is tossing the javelin past the state class "B" record consistently; Wertz is stepping the 100 around 10 flat, and Pat Herbert has heaved the discus for distances exceeding Bill Smith's county record mark several times. The Brown and White has a neat high and broad jumper in Smith, who also steps the high hurdles, while Herbert puts the shot past the 40-ft. mark consistently.

Week-End In Sports Realm

PINEHURST, N. C.—John Doe beats Gregory Mangin, 6-0, 6-1, 6-3, in north and south tennis singles finals; with Lott, loses to Allison and Van Ryn in doubles, 8-6, 6-4, 6-4.

BEAULIEU, FRANCE—Tilden and Coen win doubles of Beaulieu tournament, beat Lelieur and Magloff of France, 6-3, 6-3, 7-5; Tilden and Elizabeth Ryan beat Coen and Helen Jacobs in mixed doubles, 6-1, 6-3.

BOSTON—Clarence Demar wins Boston marathon for seventh time. LAWRENCE, KAS.—Thirteen meet records fall in Kansas relays; Leland runs century in 9 4-10 with aid of wind.

BOSTON—Four world's records fall at women's national A. A. U. championships; Stella Walsh, beaten at 40 yards, sets new mark in 220.

PITTSBURGH, PA.—Simpson conquers Bowen in hundred and 220 as Ohio State beats Pitt, 95-40. ANNAPOLIS—Columbia varsity crew beats navy by quarter of a length with M. I. T. four lengths back.

HAVRE DE GRACE, MD.—Mrs. O. Chaney's Inception captures Philadelphia handicap.

Stonemen Take Eight Firsts In Inaugural Meet Of 1930 Season

Victorious in their first track and field engagement of the 1930 season by a decisive margin that definitely proved Salem High a prominent contender for district titular honors once again this year, tracksters under the supervision of Coach Floyd W. Stone will start immediate work on preparatory for their conflict with some 20 invading schools representing various Ohio districts.

The Red and Black, victor over Canton McKinley and Akron Central by a surprising margin of superiority, will enact the role of host to the visiting thinclads in the first annual Salem High school relay carnival under the several hundred thousand candle-power lights of Reilly athletic stadium this Friday. At least 21 schools are expected to compete in the event, believed the first of its kind ever held in the United States.

Canton McKinley and Akron Central, both competitors in past district meets and the former 1929 sectional title-holder, were proved inferior to Salem High in track and field competition in a triangular tussle at Lehman junior high field, Canton, Saturday afternoon, the Stonemen scoring 72½ points to 49½ by McKinley and 39 by Central. Salem scored in every event in the competition and verifiably snowed under the opposing contestants through its presentation of a well-balanced aggregation of track athletes.

Unexpected Outcome The outcome was a decidedly unexpected upset of dope. Canton, with a quartet of classy runners as veterans back from 1929 victories, was odds-on favorite to annex first honors. Salem, however, was superior in eight of the 15 events, taking that many first places in addition to five seconds, three thirds, four fourths and ties for two places. Canton athletes took first laurels in five events, four seconds, five thirds and two firsts. Central's only claim to distinction came in winning firsts in the broad jump and 880-yard while it took four seconds, three thirds and five fourths.

Myron Whinnery, veteran Salem runner, furnished two surprises during afternoon activities, showing his heels to Ross, crack Canton dashman, in the latter's two pet events. He finished ahead of Ross in the century sprint, making it in fast time of 10.5 seconds and also trimmed the Canton speedster in the 220 in 24 seconds. Whinnery tied with Ed Beck, Salem junior, for high point honors, both getting two firsts and 10 points.

Beck scaled to the height of 11 ft 3 in. to win the pole vault and leaped 5 ft. 6 in. in the high jump, winning the latter event easily. Don Lease of Salem tied for third and fourth in the high jump and took third in the broad jump. Henry Reese nosed Lease out for a second in the broad jump and broke the tape ahead of the field in the 220-yd low hurdles, winning the hurdle race in 27.9 seconds, just a fraction over the high school district and county record.

Walker Wins Mile Easily Harold Walker was never forced in the mile but finished it in well under the five-minute mark while his brother Clarence took second. The elder Walker also entered the half mile, finishing second to Gottshall of Canton, while Irwin Beck was third. John Terry heaved the shot 43 ft 9½ in. in his first effort to annex first place while Bill Smith was inches behind for second. Smith tossed the discus 111

ft. 3 in. for a first in the discus. Ray Smith taking third.

Even in the javelin, where the Stonemen were considered weakest, did they score for "Bugs" Raymond tossed the spear for a nice distance to take fourth place and add a point to Salem's column. Schott of Canton won the event with a 152-ft throw.

100-yd dash—M. Whinnery (S) won, time 10.5 sec; Ross (Canton) second; Junius (Akron) third; Norris (Akron) fourth.

Palestine Athlete Smashes State, County Javelin Mark

EAST PALESTINE, April 21. Paced by Russell VanFossan, East Palestine High easily won first honors in its first track and field meet of the season, Saturday. Palestine won 12 out of 14 firsts, scoring 94 1-2 points to 28 by Boardman, Leontonia's 23½ and seven by Canfield.

VanFossan bettered the Ohio state interscholastic and county records in the javelin throw by 15 feet when he tossed the spear 187 ft. 10 in. He scored 20 points in the meet, leading the

field for high score honors. Smith, also of Palestine, trailing in second place with 15.

Herbert (Palestine) came close to the county record in the discus with a heave of 111 ft. 6½ in while Wertz, flashy Brown and White runner, topped the century dash off in fast time of 10 flat.

Senators Aided In Title Drive By New Pitcher

Lloyd Brown Hurls Full Game For Second Time; Trims Yankees

INDIANS SHUT OUT DETROIT TIGERS

Willis Hudlin Wins 2-0 Duel From Uble As Burnett Stars

The Washington Senators have taken a place in the front rank of the major league teams which have started the year by upsetting some of the dope. One good reason for their good showing so far is found in Lloyd Brown big left handed pitcher.

Brown is the only major league hurler to pitch two full games so far this year and to win them both. He held the Boston Red Sox to three hits last Tuesday and yesterday scored his second triumph by downing the New York Yankees 6 to 3. The triumph put the Senators in a tie for second place in the American league instead of in the second division where the dope says they belong.

The Yankees, losing their fourth straight game, sent Sam Byrd in to replace Allen Cooke in the outfield with the announcement from Manager Shawkey that he would remain there against left handed pitching. The change brought no improvement.

Eight pitchers appeared on the mound for the second time at the start of yesterday's six games, and only Brown and Harry Siebold of the Boston Braves, remained to the end. Siebold won his game from the Brooklyn Robins, 7 to 2, as two Brooklyn errors and a home run with loaded bases provided six runs in the seventh inning.

What The Stars Did Yesterday

WALTER BERGER, Braves—Hit home with bases filled as Braves beat Robins, 5-2.

KARL HUBBELL, Giants—Held Phils to four hits and beat them, 2-1.

JOHN BURNETT, Indians—Drove in two runs with punch double to give Cleveland 2-0 victory over Tigers.

SHERIFF BLAKE, Cubs—Scattered Reds' six hits to win, 4-3.

GOOSE GOSLIN, Senators—Hit double and triple, scored one run, drove in two more and Senators beat Yanks, 5-3.

AL SIMMONS, Athletics—Helped A's beat Red Sox, 5-3, with single and sacrifice fly driving in two runs.

GLEAMING white... with glints of satin-finish hardware against the sheen of its porcelain or lacquer-on-steel... rich... beautiful in its simplicity... the New Westinghouse Refrigerator.

It is the only refrigerator that has all the refinements that a modern machine must possess... Buffet-Top... Temperature-Selector... Broom-High Legs.

For twelve years the Westinghouse laboratories studied household refrigeration... experimented with freezing mechanisms. At last they developed one that suited them in every way... that answered every requirement.

They had demanded of themselves a refrigerator unit that was smaller... lighter... more efficient and economical... faster in freezing. And they created it in the end. When you see it, you will marvel at its compactness.

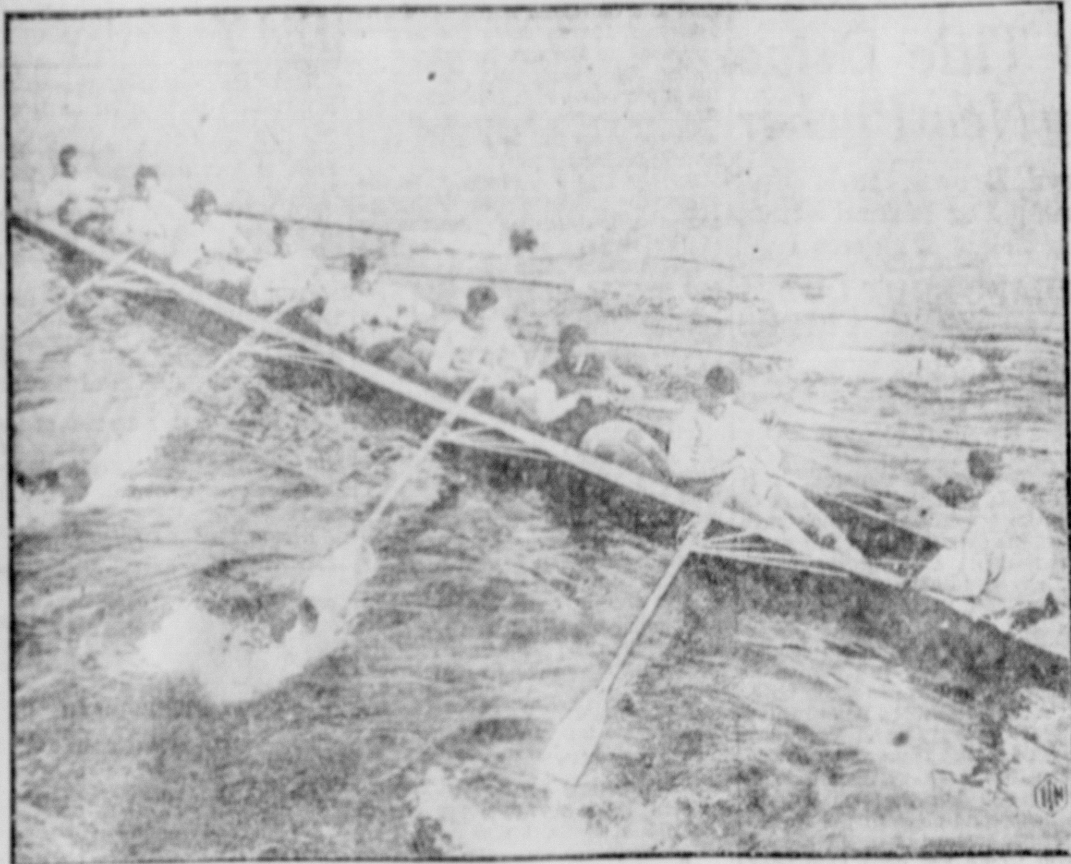

It is this improved freezing mechanism that makes possible the Buffet-Top, that is such a joy when you are taking things out or putting them away... the Broom-High Legs, that facilitate cleaning... the rugged Temperature-Selector with its sensitive control of freezing speed.

Every detail of the new Westinghouse Refrigerator discloses an advance in construction and design. You must see it, whether or not you are thinking of immediate purchase, for it is certain to become the standard by which judgment will be made.

Models are now on display.

Too Efficient for France and Italy

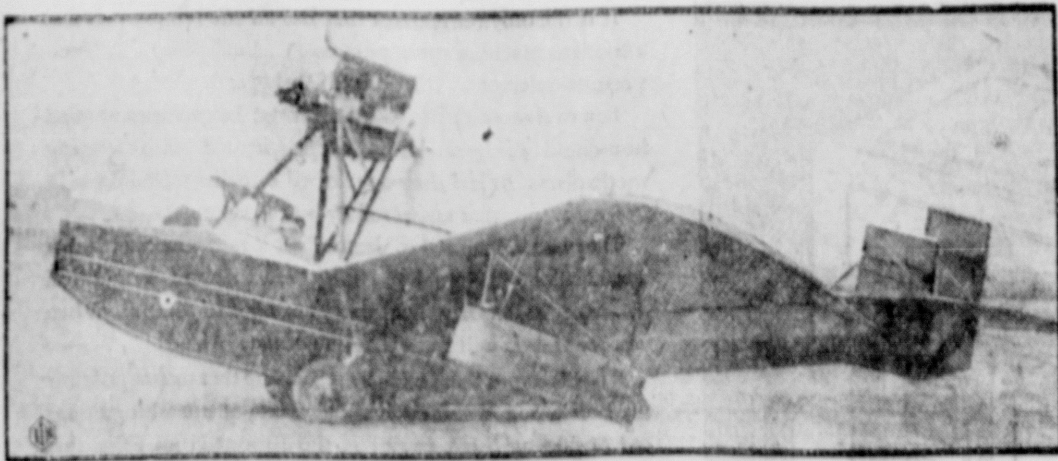

Germany's biggest battleship, the "Hessaen," with the new cruiser, the "Schleswig-Holstein," following in the distance as they make their way through the Kaiser Wilhelm Canal on their way to the tropics for maneuvers. Although these ships were constructed in adherence to the dis-

armament pact they are nevertheless the most efficient of war vessels, and it was Italy's and France's fear of them that caused many disagreements in the five-power parity in London, according to authorities.

A WALL FINISH
that you can
send to the Laundry

THE beautiful semi-gloss finish of LOWE BROTHERS' MELLO-GLOSS wall paint makes it an ideal paint for the walls and ceilings in every room in your home.

The walls of the bathroom and kitchen as well as other rooms are hard to keep clean—but not when decorated with Mello-Gloss. Walls finished with Mello-Gloss are sanitary for they can be easily washed. Cooking vapors collected on the walls of the kitchen, grease marks, finger prints and even ink spots quickly let go when a mild solution of soap and water is used. This, together with its ease in working, covering power, spreading capacity, durability and beauty, make Mello-Gloss a most economical and satisfactory paint to use.

Mello-Gloss serves equally well on walls, woodwork, metal, burlap, canvas, wall board and concrete surfaces. Let us give you a color card.

HOME-MAKING HELPS

By Wanda Barton

When a famous violinist in the middle of a recital had to stop and adjust a string the little girl who sat next me breathed a happy sigh of relief. "I'm so glad I play the piano, that never has to be fixed." It's the assumption of many adults, too, that a piano, because it is massive and sturdy in appearance, is invulnerable to all sorts of neglect and ill-treatment. Which is far from the case. Listen to the piano tuner next time he comes and has

the time to explain why all sorts of ailments can befall this large instrument. A piano is not quite so subject to quick accident as the violin, nevertheless there are many mishaps which may befall—and several precautions that should be taken to preserve tone as long as possible.

For one thing, a piano of any sort needs frequent tuning, and how much will vary with the instrument. Some require tuning twice a year, others every three months. It depends on atmosphere conditions, also how much and how well the instrument is played and how good it was in the first place.

If the air is too dry the sounding board may shrink, but too moist air is also undesirable. A piano that is left out of tune for long periods may have its tone so permanently impaired as to be hopeless of correction. That is because the strings of a piano are drawn to a certain carefully planned tension for the tonal range. When some notes are out of tune it indicates that the strings are either too tight or too loose—that is, they are exerting more of the wrong kind of pressure on the sounding board than it is prepared to meet. The pressure and resistance are both wrong, and thus may result eventually in a cracked sounding board.

Then one has the famous tin-pan rattle instead of a musical sound when a note is struck. And a cracked sounding board is practically impossible to retrieve.

A piano should never be exposed to sudden changes of heat and cold. It should not be too close to a radiator nor to a window. The piano should be in that part of the room

where all of it will rest in an even temperature—not too damp, too dry, too hot or too cold. While the piano should not be left open constantly, especially where dust is likely to settle, the inside still it is desirable that the keys should be left exposed to some sunlight each day. If they are kept covered constantly they will turn yellow soon. If there is a suspicion of moths about the place put a bag of camphor balls in the piano. Once moths get in they may wreak untold damage—for the felt on the piano keys is an ideal home for these insect pests, and dislodging them is practically hopeless.

WASHINGTONVILLE

The Fortnightly club members were entertained on Thursday evening in the home of Mrs. Wm. F. Loe. Special guests were Mrs. Clifford Bare of Salem, Mrs. Curtis Grindle, Mrs. C. A. Stouffer, and Mrs. Lawrence Frost. Contents entertained with Mrs. Ray Stouffer, Mrs. Curtis Grindle and Mrs. J. G. Smith receiving prizes. The hostess served lunch. Abyssinia Ruler Faces
Loss of Ancient Throne

Ras Tafari, Emperor of Abyssinia, whose reign is said to have stirred a hotbed of espionage and intrigue rivaling that of even Europe in the frantic days that preceded the World War. The situation is said to be serious. The Ethiopian ruler's armies have been defeated in the major battles and in some quarters his overthrow is regarded as inevitable.

Again and Again Spit is a horrid word, but it is worse on the end of your cigar

... the war against Spitting is a crusade of decency ... join it. Smoke CERTIFIED CREMO!

He tried to "get away" ... but they caught him in the act. And yet his filthy habit is no more disgusting than the bestial custom of the workman who rolls cigars with dirty fingers and spits on the ends! And remember, more than half of all cigars made in this country are made by hand, and therefore subject to the risk of spit!

Smoke **Certified Cremo** and protect yourself against this abomination! Every tobacco leaf entering the clean, sunny **Certified Cremo** factories is scientifically treated by methods recommended by the United States Department of Agriculture. And its purity is safeguarded along every step of the way

by amazing inventions that foil, wrap and tip the cigars without the possibility of spit!

Try a **Certified Cremo**—see how wonderfully good it is! Made of the choicest, tenderest leaves that the crop affords, we claim **Certified Cremo's** quality is tastier than that of any other cigar. Don't let its 5c price stand in your way. Your physician has in mind a cigar like **Certified Cremo** when he recommends a mild smoke in place of heavy brands.

Crush-proof ... immaculate ... foil-wrapped ... **Certified Cremo** is the kind of cigar the late Vice-President Marshall undoubtedly was thinking of when he said, "What this country needs is a good 5c cigar!"

To quickly introduce the newest VOSS Washer, we will give a \$16.00 set of two Self-draining Metal Tubs and Stand to each purchaser without extra charge.

Only Voss Washers have the marvelous FLOATING AGITATOR, a patented device which, for the first time, makes it possible for an electric washer to duplicate the gentle, efficient and efficient of the Hand Washing Method.

Study the three illustrations above. They tell the story of the advantages of the FLOATING AGITATOR, which washes the NATURAL way—in the clean, active suds at the top of the tub, away from the dirt, which settles to the bottom.

Voss Washers, also, have every other worth-while feature of the modern washer. Balloon roller wringer, porcelain enamel tub, enclosed mechanism running in oil bath, specially designed motor, etc.

Today's Pattern

THE adorable frock sketched today is a copy of an import developed in blue pique with white and pink printed design. The scalloped front with harmonizing collar and cuffs, and the inverted pleat in back, are interesting features of the new mode.

Pattern 1888 is equally cunning, fashioned of percale, gingham, dimity, pongee or lawn. Collar and cuffs are made of white pique. The buttons attached to each scallop are white pearl.

Designed only for sizes 2, 4, 6 and 8. Size 4 requires 2¼ yards of 36 inch material and ¼ yard trimming.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

COUPON

This pattern will be delivered upon receipt of 15c, coin or stamps. Carefully wrapped. Latest Fashion Book Inc. Send all orders to SALEM NEWS EASTERN DEPARTMENT, 243 WEST 17TH STREET, NEW YORK CITY.
